

CDR Documentation

Our CDR (Cyber Defense Research) Infrastructure is our main backbone for UBNetDef. With over 500GB 2.4TB of RAM, 240GHz 825GHz of CPU resources, and 14.25TB of storage, this infrastructure powers our class, bitcoin mining, labs, UB GenCyber camp, the Open Cyber Arena as well as competitions.

Infrastructure Location

Our CDR Infrastructure is located in **Davis Hall, room 339C**. Access to this room is controlled by the wonderful CSE IT Staff. To get access to this room, you will need to talk to  [Kevin Cleary](#).
